

METALLIC EMBOSSING POWDERS AND PANPASTELS

PRODUCT KNOWLEDGE GUIDE

The beauty of working with metallic colors is that they create a fun reflective look and give the illusion of using real metals on your projects. The FSJ metallic embossing powders and PanPastels are so much fun to work with and compliment our other great products.

Below you can see the results of our metallic embossing powders and PanPastels.

METALLIC EMBOSSING POWDERS

Metallic embossing powders create a beautiful and luxurious finish to your stamped images. The raised and shiny finish gives the appearance of crafting with fine metals.

Just like our other embossing powders, you can easily apply powder to any image stamped with our Clear Pigment ink. Simply set it with a heat gun and watch as it takes on the raised effect and look of rich metal.

METALLIC PANPASTELS

We love our partnership with PanPastel because of the products beauty, quality and ease of use. The metallic PanPastels are a wonderful pairing to our many other coloring elements.

These metallic colors work exactly like other PanPastels. They offer a rich luxurious color variance and when mixed with other metallics create amazing combinations. Add dimension to our True Color Fusion inks and other PanPastel, paints and more by adding a coating of metallic PanPastel to create a beautiful metallic gleam shimmer and blend wonderfully with other PanPastel options.

SPECIAL NOTE

We love that our selection of PanPastels pairs with our FSJ color palette so beautifully. We want to bring to your attention that the PanPastel names printed on the back label of each pan is **NOT** the color name assigned for our FSJ color palette. This is the name assigned to the color by the PanPastel company. Please see below for the FSJ PanPastel color name.
